

BOSCH Pro Water Heaters Federal Tax Credit of 2009

Visit **Bosch Pro website** www.boschpro.com or **Bosch Tax Credit Website** www.boschtaxcredit.com for complete details.

Save up to \$1,500 (30% of purchase & installation) with Federal Tax Credits for Qualified Bosch Tankless Water Heaters.

Energy Efficient Bosch Water Heaters Can Save You Money On Your Taxes In Addition To Year-Round Savings on Your Energy Bill.

2009 signifies the return of a federal tax credit for non-solar tankless water heaters under the Energy Policy Act of 2005, which expired at the end of 2007. This successful program was extended under the "American Recovery and Reinvestment Act of 2009." The act re-establishes tax credits for purchasing and installing energy efficient home improvements, such as a Bosch Tankless Water Heater.

Full guidelines for the Tax Credit can be viewed on the **Energy Star website**, www.energystar.gov. The Bosch **Manufacturers Certification Document** and **tax form 5665** can be downloaded [PDF] from the www.boschtaxcredit.com website.

Home Improvements

Home improvement tax credits are available for energy-saving home improvements placed in service from January 1, 2009 through December 31, 2010. Any home improvements made in 2008 are not eligible for the tax credit.

Home improvement tax credits are available for insulation, replacement windows, non-solar water heaters, and certain high efficiency heating and cooling equipment. The maximum amount that a taxpayer may claim from all of these tax credits combined is \$1,500 for the two years of the tax credit (2009 and 2010). Some improvements such as geothermal heat pumps, solar water heaters, and solar panels are not subject to the \$1,500 maximum.

If you are building a new home, you do not qualify for the tax credits for "eligible building envelope components" (windows, doors, insulation, roofs) or "qualified energy property" (HVAC & non-solar water heaters). However, the tax credit for photovoltaics, solar water heaters, small wind systems, and fuel cells is available for homeowners building new homes.

Internal Revenue Service (IRS) guidance for consumers can be viewed here: www.irs.gov/pub/irs-drop/n-06-26.pdf.

Tax Credit details and qualifications for Tankless Water Heaters

- Tax Credit of 30% of the cost of the Tankless Water Heater AND Installation cost with a maximum of \$1,500 (the maximum tax credit claim for energy efficient products)
